2022-HQFO-00074	Grabow, Colin	a copy of: 1. the application submitted by the Governor, Secretary of State, and President of the Economic Development Bank of Puerto Rico for a waiver of the Jones Act to allow the transportation of LNG on non-coastwise qualified vessels from U.S. domestic sources to points in Puerto Rico for use in the generation of electric energy 2. and the DHS Secretary's response. - ORIGINAL TEXT - The attached document states on pages 4-5 that "In December 2018, PREPA, together with the Governor, Secretary of State and the President of the Economic Development Bank of Puerto Rico, sought from the U.S. Department of Homeland Security and the U.S. Department of Defense a temporary waiver of the Jones Act that would permit the transportation of LNG on non-coastwise qualified vessels from U.S. domestic sources to points in Puerto Rico for use in the generation of electric energy. On August 30, 2019, the Acting Secretary of the Department of Homeland Security informed the Governor of Puerto Rico that he had determined that "any potential grant of Puerto Rico's request for a waiver of the Jones Act is premature" and that "a waiver of the Jones Act is not warranted at this time." 2022-HQFO-00124	GDI, GDI	<p>There are some Non-American groups poaching government estates and I'm involved I used my credentials gained and history to buy some, and now I need them to be union inspected and readied for me to move there, some are project offices and some are historical estates I was trying to find a lady who already works for the government with high clearances who might be interested in finding a higher road to kids other than street corporate toys and street education There is a much better life for kids back there, highly developed science development and calculated lives I've got the location codes to run projects like that and on the streets I've got a problem with Non-American groups poaching them You might find a lady back there trying to help me To catch them you need a really good computer array, put a new one together We'll build this There is no good life on the surface, it's too dangerous and too boring All the clearances on the inner system are perfect for me to move forward with a project location and a personal one I needed to make sure these locations were not booby trapped, so I send the trade unions It's been a problem since the 70s and now we are catching up I should have everything I need already, which computers can access a xerox of the contracts? How can security be so low that someone else will claim your properties and move in? DoHS was suggested to build a system to catch them You can make a profile of them by the person who buys their clothes, even for people "without papers" "without passports" I've moved all these projects forward, now I need to remove a few impedances There are only so many people who move houses in between seasons, track all of them and narrow it down March 1 June 1 September 1 December 1 I had some Navy fighter pilot settlements even back during the second half of Obama, it's been an ongoing project They gave me a bunch of credentials off my upgraded nuclear power badges They hid all the arsenal pieces on me as well I've seen a lot of black hair terrorists, and so I've put together a "Neapolitan Forces" set of groups based on Red Hair, Brown Hair and Blonde Hair Keeping the people with black hair out of it might eliminate some natural problems Security was so low and rudimentary it couldn't catch them Check my badges for setting up a special operations office and running the project myself I activated DoHS cashiers at the White House, go check if I have enough money for my personal paychecks Do an audit on my accounts and luxury items like jewelry I had a meeting with the DoHS recently, so I've been into a building and through the high grade scanners That also builds a profile, it was San Diego I should be able to fund a satellite office with my accounts, get some people some jobs and help out I like to pay \$3,000,000 per person per year Even if it's a semi-corporate hire packet, it might work out Put together a new set of dossiers for it I can't support kids on my current life and many of the paths forward I'm perfect and beautiful and not wanting to get 10 years further down the road without support for my kids Sign me up for some super support programs for kids There are probably some ladies who are also in that mode See how much I can get done on my clearances alone, even all the way out to space faring credentials, I think I've got some astronaut pilot credentials back there Make a packet and check if it gets deleted, set up a "bait car" of files to catch them Generate a set of paperwork which covers the entire scope of the project, then you can recirculate it to various drop boxes as time goes on Lord Ryan Dennis Hood</p>	10/28/2021

2022-HQFO-00323	Tomenga, Michael	<p>a copy of the Delegation Orders from the Department of Homeland Security (DHS) to the Commissioner, U.S. Customs and Border Protection (Customs or CBP) and from the Commissioner to the Office of Trade, Regulations and Rulings, or offices therein. These Delegation Orders are not published on the DHS or Customs websites. Prior to the enactment of the Homeland Security Act of 2002, such Delegation Orders were issued by the Secretary of the Treasury to Customs and published on the Treasury Department website. Copies of such Treasury Delegation Orders. i.e., Treasury Delegation Orders 165-xx, previously downloaded are attached for reference. I anticipate that the DHS Delegation Orders would be similar and would likely reference administration and enforcement of the Tariff Act of 1930, classification value, marking, penalties, forfeitures, and the navigation and coastwise trade laws. It appears that the DHS Delegation Orders to the Commission of Customs are set forth in DHS Delegation 07010.xx, as revised. I note a published reference to Delegation 07010, Revision 03 delegating authority to the Commissioner of Customs. https://www.dhs.gov/sites/default/files/publications/2017-HQFO-01350%20records.pdf To the extent that the Secretary of DHS did not delegate authorities to CBP, Office of Trade, Regulations and Rulings, I am also interested in a copy of the CBP Commissioner's redelegation of authority to for the Tariff Act of 1930, as amended, and the navigation and coastwise trade laws to the Office of Trade, Regulations and Rulings.</p>	12/7/2021

2022-HQFO-00325	THORNTON, SUSAN	IPT, Inc. had a complaint a few years ago (estimated 2014-2015) regarding payment of overtime for piecework employees. We provided payroll records as requested by the Fresno Office of the U.S. Department of Labor. We worked with (b)(6) who I believe was Assistant Director at that time. The office was located in downtown Fresno then, probably an "N" Street address, between Tulare and Kern. We were required to calculate the overtime and back-pay several employees for whom it had been determined had not been properly compensated for overtime. I just need some basic facts for this case: title, case number, date, and a summary of the findings for a response to a complaint by a former employee: "Identify (by title, case number, jurisdiction, and date) each and every lawsuit, arbitration, administrative action, or regulatory action involving you [IPT, Inc.] relating to any and all of the causes of action alleged in the complaint from ten (10) years prior to filing of the complaint to the present."
