

2023 YEAR IN REVIEW

 **HSWERX**

HOMELAND SECURITY INNOVATION HUB

A DEFENSEWERX HUB

HSWERX IMPACT

2023 HIGHLIGHTS

DEFENSEWERX

"HSWERX has been an invaluable partner in collaboration with the Department of Homeland Security (DHS) Science and Technology Directorate's (S&T) Maritime Safety and Security's (MSS) Energy Efficient Propulsion System. The staff organized the Collaboration Events, including sending invites to the ideal participants to ensure S&T MSS obtained an optimal list of requirements and information on cutting-edge technologies in this field. With their instrumental assistance, this activity has been improved by expediting the early research stages with beneficial information on possible customer requirements and the technology landscape."

MATT BARGER

DHS S&T PROGRAM MANAGER

“HSWERX has significantly accelerated ITF’s timeline to source viable solutions and demonstrate a proof of concept...TSA ITF is excited to deploy the proof of concept in 2024 and looks forward to providing the department with an update and results of the Mobile SSTA Optimization Demonstration.”

NICHOLAS KOBILANSKY

TSA ITF PROGRAM MANAGER

HSWERX

DEFENSEWERX

”

“HSWERX provides the most comprehensive think tank that encourages an environment of progressive ideas and discourages selfish means and replaces it with common goals and idea sharing.”

Justin Swartz
FLYMOTION

“The [Assessment Event] was useful getting a broader understanding of future needs. The concept paper/pitch are phenomenal as it allows proposing a broader opportunity and new propulsion system architectures vs. answering a specific need limited to traditional tech and legacy requirements.”

Kent Kristensen

GLX Powers

Systems Inc.

PAST EFFORTS

2023 HIGHLIGHTS

JUNE 7

TSA Airport Resource Optimization Collaboration Event

- + **148** challenges and ways to overcome were identified
- + Groups developed **17** problem statements which were prioritized to help stakeholders build assessment criteria for the follow-on Assessment Event (AE)

■ Industry: **84%** ■ Government: **14%**
■ Academia: **2%**

JUNE 28

Energy Efficient Propulsion Systems Government Only Collaboration Event

- + **140** challenges and ways to overcome were identified
- + Groups developed **9** problem statements which were prioritized to help stakeholders develop next steps for a Collaboration Event

■ Government: **100%**

JULY 12

Automotive Vehicle Cybersecurity Collaboration Event

- + **188** challenges and ways to overcome were identified
- + Groups developed **16** problem statements which were prioritized to help stakeholders build assessment criteria for the follow-on Assessment Event (AE)

■ Industry: **52%** ■ Government: **40%**
■ Academia: **8%**

SEP 6

Energy Efficient Propulsion Systems Collaboration Event

- + **120** solutions were developed for the **9** problem statements that were outcomes of the government only CE
- + The groups developed **13** Blue Sky action plans which were prioritized to help stakeholders build assessment criteria for the follow-on Assessment Event (AE)

■ Industry: **67%** ■ Government: **33%**

SEP 19

Digital Identity Testbeds Collaboration Event

- + **185** challenges and ways to overcome were identified
- + Groups developed **13** problem statements which were prioritized to help stakeholders build assessment criteria for the follow-on Assessment Event (AE)

■ Industry: **86%** ■ Government: **14%**

SEP 20

Beyond Visual Line of Sight (BVLOS) Collaboration Event

- + **319** challenges and ways to overcome were identified
- + Groups developed **16** problem statements which were prioritized to help stakeholders build assessment criteria for the follow-on Assessment Event (AE)

■ Industry: **49%** ■ Government: **43%**
■ Academia: **8%**

NOV 15-16

Automotive Vehicle Cybersecurity Assessment Event

- **34** submitters RSVP'd to a **Q&A Session** that was held on **Oct 4** to better understand DHS's specific technology objective
- Out of **18** submissions, **13** capabilities were selected to present
- **5** DHS representatives participated

■ Industry: **72%** ■ Government: **14%**
■ Laboratories: **11%** ■ Academia: **3%**

NOV 28

TSA Airport Resource Optimization Assessment Event

- **53** submitters RSVP'd to a **Q&A Session** that was held on **Oct 4** to better understand DHS's specific technology objective
- Out of **18** submissions, **6** capabilities were selected to present
- **12** DHS representatives participated

■ Industry: **70%** ■ Government: **30%**

DEC 13

Energy Efficient Propulsion Systems Assessment Event

- **29** submitters RSVP'd to a **Q&A Session** that was held on **Oct 24** to better understand DHS's specific technology objective
- Out of **20** submissions, **7** capabilities were selected to present
- **7** DHS representatives participated

■ Industry: **78%** ■ Government: **22%**

NOV 17

Next Generation 911

Optimizing Emergency Communication Centers (ECCs) w/AI Q&A Session

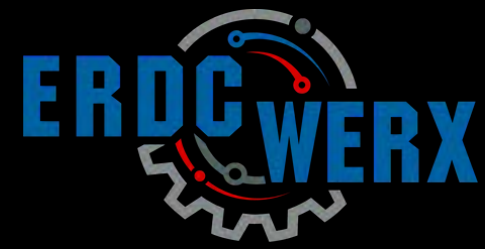

- **64** submitters RSVP'd to the Q&A to better understand DHS's specific technology objective in preparation for the **January 17, 2024** Assessment Event
- **34** organizations submitted their technology proposals

SPECIAL MENTION

2023 HIGHLIGHTS

DHS & DEFENSEWERX

DHS T2C visited the DEFENSEWERX Hub, ERDCWERX in Vicksburg, Mississippi on November 15, 2023. Several ideas resulted from this meeting centered around licensing technologies, growing the ecosystem, and partnering opportunities between DHS and ERDC.

One of **HSWERX's sister hubs**, ERDCWERX (EWX) was created under a Partnership Intermediary Agreement between DEFENSEWERX and the U.S. Army Engineer Research and Development Center (ERDC).

On August 15, 2023 **DHS VIP, Kalpesh Patel, DHS CWMD**, visited SOFWERX. An HSWERX team member was on-site to meet the VIP and answer questions about the Hub.

On October 11, 2023, **DHS VIPs, Joel Rynes and Steven Griffin, DHS CWMD**, visited SOFWERX. An HSWERX team member was on-site to meet the VIPs and answer questions about the Hub.

One of **HSWERX's sister hubs**, SOFWERX (SWX) was created under a Partnership Intermediary Agreement between DEFENSEWERX and the U.S. Special Operations Command (USSOCOM).

Alongside DHS Science & Technology Directorate, Technology Transfer and Commercialization, HSWERX has served the following components:

United States Coast Guard (USCG)

Transportation Security Administration (TSA)

United States Customs and Border Protection (CBP)

United States Secret Service (USSS)

Science & Technology (S&T)

License DHS Technology

Within the first **30** days of launching the licensing page on the HSWERX website, **7** companies requested Information to license DHS technology.

Magnetic Breakaway Mount for Tools & Equipment

Emergency Prevention & Response

Scalable Body Armor System

Emergency Prevention & Response

High Resolution Enhancement for 3D LiDAR Systems

Transportation Security & Explosives Characterization Solutions

Rescue Basket

Emergency Prevention & Response

DEFENSEWERX has the world's
largest innovation ecosystem to
ensure national security.

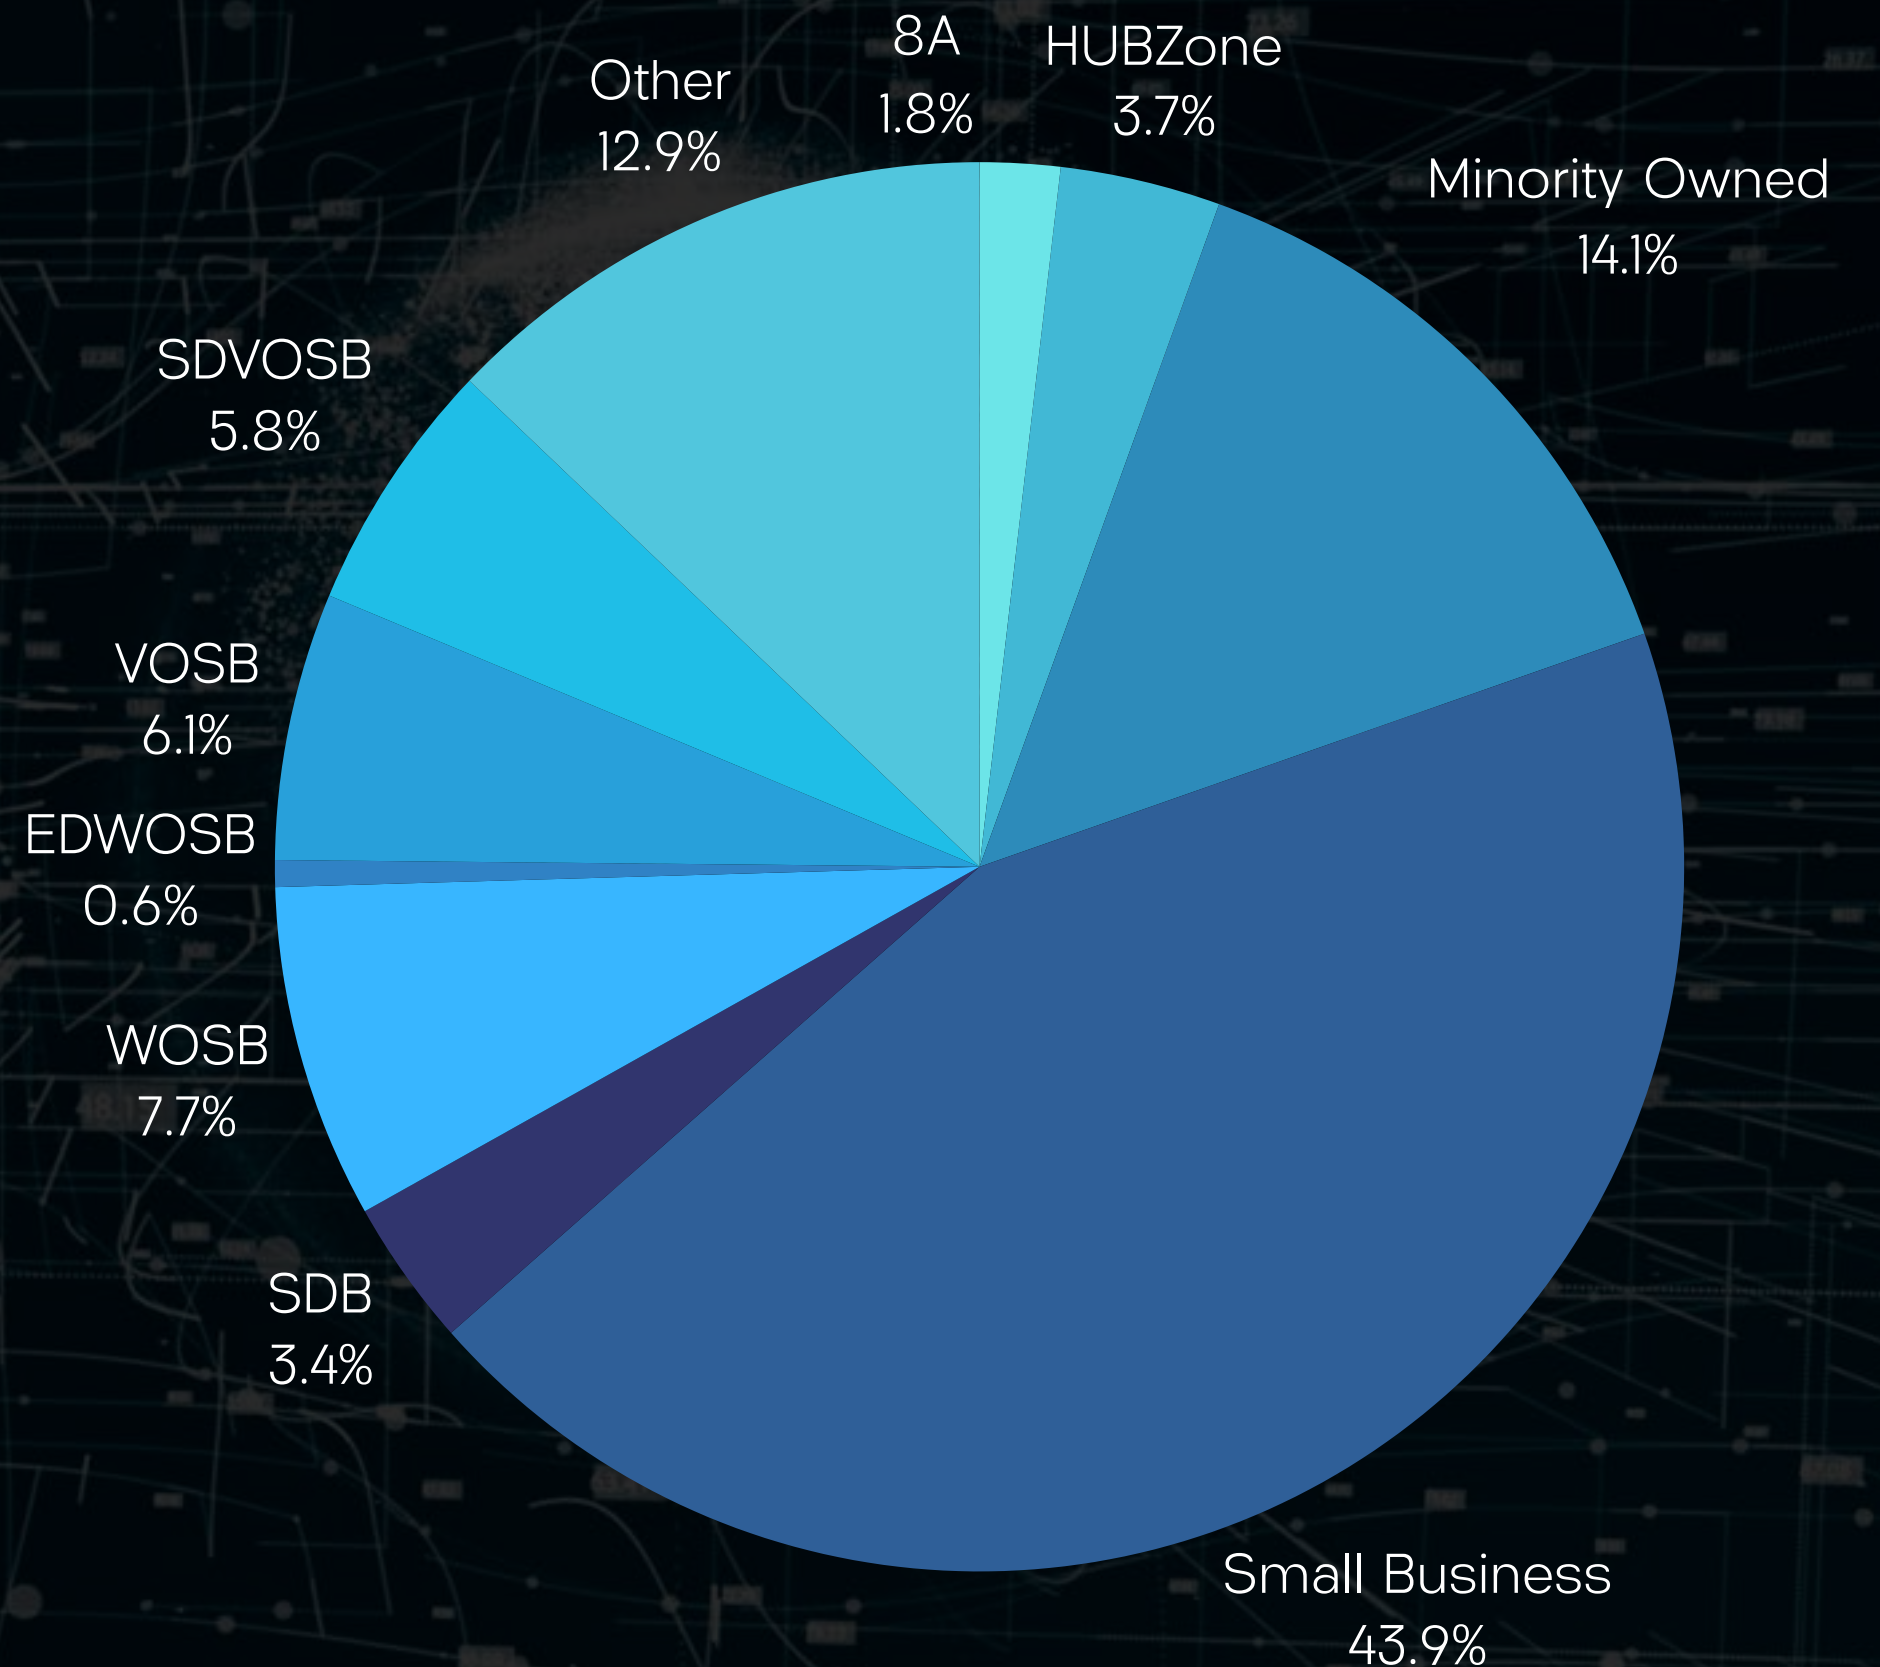

IN 2023

THE HSWERX OPT-IN
ECOSYSTEM GREW BY

186%

The following chart shows underserved communities that are active in the HSWERX ecosystem.

EXCITING NEWS AHEAD IN 2024!

1. **Dynamic Collaborations:** Expect more collaborations with DHS and stakeholders to tackle evolving challenges in cyberspace, air, land, and sea.
2. **Cutting-Edge Technologies:** Look out for revolutionary technologies shaping security and defense, keeping our nation innovative.
3. **Expanded Reach:** Engaging a wider range of innovators and experts to enhance homeland security solutions.
4. **Impactful Events:** Collaborating with DHS and innovators to identify and deliver real-world solutions.
5. **Tech Transfer & Commercialization:** Bringing groundbreaking solutions to market alongside DHS T2C.

Join us in shaping the future of homeland security.

Together, we make a difference!
