Tactical Communications Equipment & Services II (TacCom II)

The Department of Homeland Security (DHS) established a multiple award, Indefinite Delivery/Indefinite Quantity (IDIQ), Multi-Agency Contract (MAC) to allow DHS and other federal agencies the ability to procure the latest tools and technologies for end-to-end transmission of mission-critical voice and data. This Best-In-Class (BIC) solution features both equipment (radios, infrastructure, and satellite solutions) and services (systems integration, installation, engineering, and operations and maintenance). There are 39 total awards across two technical categories, one for equipment and one for services. There are 32 unique awardees, of which 23 are small businesses.

Key Contract Vehicle Features:

- Newest and most advanced technology is always immediately available;
- Reliability guaranteed with standard commercial warranties and delivery 30 days after order;
- Saves time with streamlined ordering and standardized labor categories;
- Interoperable equipment is available, enabling communication across government agencies; and
- Offers competitive pricing discounts.

For more information:

- Visit the TacCom II Solution on the Acquisition Gateway [here](#).

Note: A login is required to access full content for TacCom II on the Acquisition Gateway. If you need assistance logging into the Gateway or if this is your first time logging in, please visit the link below and select Sign In in the right corner to register.
