

Design/Build and Construction Services II

The Department of Homeland Security awarded multiple Indefinite Delivery/Indefinite Quantity (IDIQ) National Multiple Award Construction Contracts II (NMACC II) to procure design, build, and construction services, including, but not limited to:

- General construction;
- Marine construction;
- Military housing construction;
- Demolition;
- Historical restoration; and
- Other services that align with the construction services definition.

The Design/Build and Construction Services contracts are available for use in the United States, Puerto Rico, Guam and U.S. Virgin Islands. It is centrally managed and administered by the USCG Facilities Design and Construction Center (FDCC) with decentralized ordering by Components.

These contracts are intended to provide prompt response on an as-needed basis for national routine and emergency construction requirements and it will meet the majority of DHS's infrastructure construction needs for projects over \$4M.

Key Contract Vehicle Features:

- Reduces the average procurement timeline from eight months to less than four months, while still meeting all Federal Acquisition Regulation (FAR) requirements;
- Provides competitive pricing and improved project execution due to competition among highly qualified contracting firms; and
- Facilitates a relationship where awardees become familiar with DHS construction requirements, which reduces the risk of cost overruns due to design errors.

Period of Performance (POP):

One-year base, plus six one-year options (4/17/2018 – 4/16/2025)

Number of Awardees:

Nine large businesses

Contractor Information:
